OBJECTIVES

Investment policy

The Sub-Fund mainly invests, either directly or through other funds and derivatives, in corporate bonds that are investment grade and denominated in USD.

Specifically, the Sub-Fund invests in corporate debt and debt-related securities, including money market instruments, that are denominated in USD and are rated at least BBB-/Baa3 (or judged equivalent by the investment manager). - o deposits with credit institutions: 20%
- o contingent convertible (coco) bonds: 10%

Non-USD investments may be hedged to USD.

Derivatives and techniques The Sub-Fund may use derivatives for reducing risks (hedging) and costs, and for generating additional income or growth.

In addition to core derivatives, the Sub-Fund intends to use credit default swaps.

Investment strategy

In actively managing the Sub-Fund, the investment manager combines market, credit and issuer analysis to select investments that appear to offer a superior risk-adjusted return.

Sustainability approach The investment manager considers environmental, social and governance (ESG) criteria when assessing investment risks and opportunities. It may however invest significantly in securities with low ESG ratings.
